Important Update: 2025 Pricing and Tariff Impacts

As of August 1st, a new tariff on gold and silver has gone into effect. Though our charms are proudly manufactured here in the USA, the precious metals we use are imported and now impacted by this change. Due to the late announcement of this tariff, we were unable to send out new packets this year in advance. As a result, we have made the difficult decision to adjust our pricing structure for 2025. **The standard 40% is no longer available**

Additional Discount offers for 2023.
